This week we had Wacky Week! It was full of silliness and fun! We made wacky hats and had a parade around the school, showing them off. We also painted with droppers and the children had a blast doing it. We had a circus outside with hula hoops. For most of the week we had circle time outside, due to the beautiful weather.

Next week we will have an Oceans and water fun theme. We will learn about the different sea animals and the sounds they make. We will make an ocean in a bottle and even make our own moon sand. We will dance and create our own waves with scarves. We cannot wait for a week full of under the sea fun!

This week was all about ladybugs! We made paper plate ladybugs, learned about their life cycle and even talked about the meaning of the spots (fun fact: each spot represents a year of the ladybugs life!) We looked for ladybugs outside with magnifying glasses and sang for them to come to us. It was so beautiful outside that we ended up having circle time outside today, the kids loved it!

Next week we will have a Wacky Week theme. It will be a week full of imagination and silliness. On Tuesday we will make silly hats and then have a silly hat parade, walking through each classroom, ending up outside. The children will make silly monsters and even pretend they are in the circus! Not only that but, we will also paint with the opposite end of a paintbrush to switch things around and make it wacky.

This week was all about zoo animals! We read many books about animals; we made lion masks and learned about the different types of animals that are found at the zoo. We made various animal sounds and had a bear cave under the table. It was a blast!

Next week we will focus on ladybugs. We will make ladybugs out of paper plates and even make antenna headbands. Throughout the week, we will fly around and dance like ladybugs. On a nice day, we will go around outside and look for ladybugs with magnifying glasses and sing a song to see if ladybugs will come to us.

This week was all about our amazing moms! We read many books and even had some of the moms come in and read to us. We created gifts for moms and had a lot of fun playing outside, enjoying the beautiful weather.

Next week we will focus on zoo animals. We will talk about different types of animals that are found in the zoo. We will make different animal sounds and even make a bear cave!
